EDUCATION

Carnegie Mellon University

Bachelor of Science in Information Systems - 2013
Master of Human Computer Interaction - 2014

PROJECTS

WAFFLE GRID

JAN - FEB 2013

Designed and built a miniature cardboard waffle canopy, in addition to a detailed assembly diagram for an architecture course

IPAD MAG

OCT - DEC 2013

Designed an interactive magazine using various processes: competitive analysis, mood boards, sketching, ideation, and iteration

INTERESTS

Digital Fabrication | Arduino | Interaction Design
User Centered Design | UI Design | Front End Development | Football (soccer) | Mixed Martial Arts | Cooking | Swimming | Reading | FIFA!

PUFFERFISH

AUG - DEC 2013

Architecture group project where we researched an organism, and designed a responsive building technology component based on that organism

PORTFOLIO

NOV - DEC 2013

Designed and implemented a javascript heavy personal web portfolio for my user interface web lab

EXPERIENCE

ZENON INTERN

JUN - JUL 2009

Maintained current desktops and laptops, including: fixing minor issues, replacing minor parts, fixing printers and any other electrical device workers needed help with at the Lagos branch

RESEARCHER

OCT - DEC 2011

Prototyped and developed the interaction techniques for entering and modifying data into the Person Place Time View under the supervision of Dr. Scott Davidoff

RESEARCHER

JUN - AUG 2012

Created and designed the information architecture of the Person Place Time View visualization calendar under John Zimmerman

FRONT END DESIGNER

JUL 2013

Aided in the design and implementation of apartmentreviews.net and apartmentlinks.com. Created wireframes, interactive mockups, and oversaw the front end migration to the Ruby on Rails platform
